At the last meeting the Committee narrowed their focus to a couple of options and they had some clarifying questions regarding those options and possible cost saving alterations that may be incorporated. Rusty Malik of QA&M provided responses to those questions.

Principal Espinosa and Associate Principal Foxen spoke to option 2 being the option which would help administration to manage the building in the most effective and efficient way and also in the least disruptive way.

There was a committee consensus that option 2 is the committee’s recommendation to be presented to the Region 4 BOE at their scheduled special meeting on December 15th.
