RE: Gas Service for Major Maintenance Renovation Projects
Various Elementary Schools

In conjunction with the Major Maintenance Renovations Program, the Department of Physical Facilities has requested that BGE upgrade the existing gas service at twenty-four (24) of the Phase II elementary schools. This work includes extensions to existing gas mains, new meter regulating stations, new meter pads, and all associated restoration work. BGE has proposed to provide these services for a cost of \$8,956 per school for a total of \$214,944.00 for all twenty-four elementary schools. A list of the affected elementary schools is attached.

At this time, the Department of Physical Facilities requests the Board's approval of an award in the amount of \$214,944 with BGE for upgrades to the gas service at twenty-four elementary schools. Funding for this work is available in Capital Budget Project #665 – Major Maintenance.
