RECOMMENDATION

That the Board of Education approves an award of contract.

Award of Contract for Environmental Consulting Services at White Oak School.

Appendix I

**Recommendation for Award of Contract
Environmental Consulting Services at White Oak School
November 18, 2002**

The Department of Physical Facilities is currently managing the Major Maintenance Renovation Project at White Oak School. The work at this special school is extremely sensitive, particularly in terms of various environmental parameters. Aerosol Monitoring and Analysis, Inc., one of our "on-call" industrial hygiene firms, has been providing environmental consulting support and quick response services at various sites throughout the school system.

At this time, the Department of Physical Facilities requests the Board's approval of a proposal from Aerosol Monitoring and Analysis, Inc. in the not-to-exceed amount of \$50,000.00 to provide "on-call" environmental consulting services during the renovation project at White Oak School. Funding for these services is available in Capital Budget Project #665 – Major Maintenance.
