## BOARD OF EDUCATION OF BALTIMORE COUNTY, MARYLAND

Tuesday, December 2, 2003

The Board of Education of Baltimore County, Maryland, met in open session at 5:31 p.m. at Greenwood. President James R. Sasiadek and the following Board members were present: Mr. Donald L. Arnold, Ms. Francesca Cirincione, Mrs. Phyllis E. Ettinger, Mr. Thomas G. Grzyski, Dr. Warren C. Hayman, Ms. Jean M. H. Jung, Ms. Janese Murray, and Mr. James Walker. In addition, Dr. Joe A. Hairston, Superintendent of Schools, and staff members were present.

Mr. Sasiadek reviewed the following housekeeping items with Board members:

- ⌚ African American Gala to be held on Thursday, December 11, 2003 at the Meyerhoff Symphony Hall with the pre-event reception beginning at 6:30 p.m.
- ⌚ The National Science Foundation SUPER STEM education project will be unveiled on Wednesday, December 17, 2003. Board members were asked to contact Ms. Stiffler regarding this function.
- ⌚ Upcoming events in December and January 2004.

Dr. Hairston distributed to Board members a memo from the Maryland State Department of Education regarding Maryland High School Assessments. He informed Board members that the State Board of Education would vote on December 3, 2003 the proposed framework to restructure graduation requirements by incorporating the High School Assessments.

Mr. Hayden entered the room at 5:35 p.m.

Mr. Hayden expressed his concern that local school boards seem to have no voice in the decision process. He believes the high school assessment is valuable; however, it should not be a graduation requirement.

Mrs. Ettinger concurred with Mr. Hayden. She was astonished that the Board had no opportunity to review and discuss this issue prior to its vote. She asks that the local Board attempt to address its concern to the legislature. She was disturbed that the State would view the Maryland diploma for only those students who had passed the high school assessment.

Mr. Hayden remarked that the local Boards receive information more quickly than the State Board. He believes local Boards should be the administrators of the program.

According to Mr. Arnold, State Board believes MABE and local school Boards have not provided adequate feedback. Input from local school Boards is needed. Mr. Arnold stated it is important that this Board is heard at the State level. He stated the importance of having an assessment process for graduating students.

Dr. Hairston will attempt to meet with principals and teachers to get feedback regarding the proposed graduation requirement restructuring.

Mr. Sasiadek remarked that Dr. Hairston had only received the information an hour before the start of the Board meeting.

Mrs. Ettinger stated the local school Board must receive information in advance. She states the lack of process concerns her and has implications for this decision and all future decisions. Mrs. Ettinger recommends communicating to the State Board our concern with the speed that this proposal is moving and that local Boards do not have time to review and discuss critical issues.

Mr. Grzynski stated it would be appropriate for the State Board to consider getting input from local school Boards, communities, and constituent groups.

Mrs. Ettinger requested that a letter or an electronic mail message be sent to the State Board President asking the State Board to postpone or table the vote until January 2004. This local Board needs time to express its concerns to the State Board.

Mr. Sasiadek stated the Board would generate a letter expressing Baltimore County's Board of Education concerns regarding the process and request remanding this item until January 2004.

At 6:07 p.m., Ms. Jung moved the Board go into closed session to discuss personnel matters and discuss negotiations pursuant to the Annotated Code of Maryland, State Government Article, §10-508(a)(1) and (a)(9). The motion was seconded by Mr. Arnold and unanimously approved by the Board.

Mr. Grimsley and Mr. Dan Capozzi, Manager of Human Resources, reviewed with Board members matters relating to upcoming negotiations with the Board's bargaining units.

Mr. Grimsley recognized the administrative appointments approved at the November 19, 2003 meeting.

### PROPOSED CHANGES TO 2003-2004 SCHOOL CALENDAR

Mr. Doug Neilson, Chief Communications Officer, introduced Mr. Alonza Williams, Director of Communications. Mr. Williams provided an overview of missed school days during Hurricane Isabel. He noted individuals that were not able to attend the October 28 meeting had the opportunity to attend the November 13 meeting and provide input on possible calendar change. Mr. Williams stated it was the consensus of the Committee to make no changes to the existing 2003-2004 school year calendar. The Committee's decision was based on the fact that when the Board adopted the current calendar, it included seven "snow" or inclement weather days. The Committee felt that, if and when the seven "snow" days were used, any additional days needed to comply with the State's mandated 180 days of classroom instruction time could

PROPOSED CHANGES TO 2003-2004 SCHOOL CALENDAR (cont)

be made up at the end of the school year. By following the Calendar Committee's recommendation, the system would have five (5) inclement weather days available for use during the remainder of this school year.

Mr. Sasiadek remarked this is the second year for the MSA's and that teachers have a growing understanding for students' success. His personal recommendation would be to take the one Professional Day on February 13, 2004 and one "snow" or inclement weather day.

On motion of Mr. Hayden to make no changes to the 2003-2004 school year calendar, seconded by Dr. Hayman, the Board approved the recommendations of the Calendar Committee. Mr. Sasiadek opposed the decision.

PERSONNEL MATTERS

On motion of Mr. Walker, seconded by Dr. Hayman, the Board approved the personnel matters as presented on Exhibits C, D, E, and F. (Copies of the exhibits are attached to the formal minutes.)

### RECOGNITION OF ADVISORY COUNCIL APPOINTMENTS

Mr. Grimsley recognized the advisory council appointment approved at the December 2, 2003 meeting.

### REPORTS

The Board received the following reports:

- A. **Recognition of Student Artwork in the Comprehensive Annual Financial Report** – Ms. Murray announced that the BCPS Comprehensive Annual Financial Report (CAFR) is published annually after completion of the annual audit of the Board's Financial Statements. This year artwork of three Parkville Middle School students was included in the CAFR. Ms. Murray recognized and thanked the students by presenting each student with a \$100 U.S. Savings Bond. The students were: Della Isaac, Johanna Wernick, and Chelsea Schnitzker. The Board thanked Parkville Middle School art teacher, Ms. Linda McConaughy, for providing her student's work.

REPORTS (cont)

- B. **Update on Retired/Rehired Employees** – Mr. Randy Grimsley, Executive Director in Human Resources, stated this report is to inform the Board regarding the hiring of highly qualified teachers. Mr. Grimsley noted the Board approved the Waiver for Conditionally Certified Teachers in October, which included a number of activities that will assist in achieving the goal of placing highly qualified teachers in all classrooms. In the last month, BCPS Human Resources has been on 10 college campuses and met with 100 student teachers that are already in our schools. As of today, BCPS has hired 1,200 teachers. Mr. Grimsley introduced Ms. Margaret-Ann Howie, Legal Counsel to the Superintendent, who explained the law as it relates to retired/rehired teachers and mentors.

Ms. Howie provided a briefing on the requirements of Maryland law on retired/rehired teachers.

1. The State Personnel and Pension Articles were amended in 1999. Section 22 deals with State Teachers' Retirement System, and Section 23 deals with the State Pension System.
2. Sections 22-406 and Section 23-407 both indicate that a retired/rehired employee must be certified; must be able to verify a satisfactory or better teaching performance in their last assignment prior to retirement; and must be appointed by the County Board of Education on behalf of the Superintendent.
3. The statute indicates that these individuals must be employed as a substitute classroom teacher, substitute teacher mentor, teacher mentor, or classroom teacher in a reconstituted school or in a school that has been recommended for reconstitution.

Ms. Howie noted that shortly after the passage of Senate Bill 15, the State Board of Education found that every county in the state had a shortage of teachers.

Mr. David Evans, Position Administrator of Human Resources, provided a broader look at recruitment. BCPS recruited in 13 states with more than 100 recruiters. There are currently more than 8,000 teachers in BCPS schools. This year, BCPS hired 165 retired teachers for 23 different subject areas. This represents approximately 13.8% of our newly hired teachers and approximately 2.1% of the overall teaching staff.

Mr. Evans stated Human Resources is gearing up for the coming hiring season. The primary focus is to aggressively recruit to find as many highly qualified candidates as possible and to consider retirees after the new legislation has been clarified and after we have exhausted our pools of highly qualified applicants. Mr. Evans noted there are challenges ahead for the system:

REPORTS (cont)

- Attempting to build a large pool of “highly qualified” candidates in all subject areas while recognizing that there are several areas in which limited prospects are available.
- Building our candidate pool in anticipation of the FY05 hiring season while addressing vacancies that occur throughout the current school year.

Ms. Howie provided a briefing on the requirements of Maryland’s law concerning retired/rehired principals. A retiree of the Teachers’ Retirement System who:

1. was employed as a principal within 5 years of retirement; or
2. was employed as a principal not more than 10 years before retirement and was employed in a position supervising principals;
3. has verification of better than satisfactory performance for each year as a principal and, if applicable, in a position supervising principals prior to retirement;
4. Based on the retiree’s qualifications, has been hired as a principal.

Mr. Grimsley pointed out that all 10 rehired principals meet the statutory requirements.

Mr. Hayden asked if BCPS has communicated with the State Department to ensure both the State and County have the same understanding of the law. Ms. Howie responded she has spoken with representatives from the Attorney General’s office.

Mr. Kennedy asked if the intent of the law was to ensure we have qualified educators in every classroom. Ms. Howie stated BCPS is not required to follow the intent because that is not the statutory language. There is nothing in the statute that indicates the selection of particular schools other than reconstituted schools or those places where there is a geographic shortage.

Mr. Kennedy commented we should want highly qualified individuals in every position. Ms. Howie stated that any lawyer would advise his client to follow the statute and not what someone thought. She noted that since the State Board of Education declared that the entire state was a geographic shortage area, then the State by its action permitted all subject areas in all schools to be opened and filled by retired/rehired retirees.

Mr. Kennedy was pleased with what Dr. Hairston has been doing to address the needs of the school system.

Mrs. Ettinger thanked the presenters for clarification of the subject. She inquired as to how many teachers and principals would be eligible to retire or declare their intent to retire in the coming year. Mr. Grimsley responded he would get that information back to the Board.

REPORTS (cont)

Mr. Grzyski asked for clarification of the cost of a retired/rehired individual. Mr. Grimsley stated specific pension dollars related to any employee is not available to BCPS. Human Resources does look at people with 30 years experience leaving at the top of the scale and about one-third of the teachers come in at step one because BCPS is seeking teachers with experience to come into the system. Mr. Grzyski commented that BCPS would get some of the finest crop of future principals from teachers who work under the guidance of the retired/rehired principals.

Ms. Jung asked if every rehired/retiree is employed in accordance with the statute and MSDE's interpretation of the statute. Ms. Howie responded that the information received to Human Resources as of this time is that all of the retired/rehired individuals currently working have been employed consistent with the statute and MSDE's interpretation of the statute.

Ms. Jung commented this program has helped to stabilize and improve the quality of education provided in the county.

Mr. Walker asked if it is the letter of the law or the intent of the law that individuals be placed in the most challenging situations. Ms. Howie responded that the statute states that the individuals have to be placed as classroom teachers, substitute classroom teachers, teacher mentors, or substitute teacher mentors in either geographic areas of shortage or subject areas of need.

Mr. Grimsley clarified there are currently 165 retired/rehired individuals presently in our schools. There is one individual requiring clarification and that is a personnel issue. Mr. Grimsley noted, to the best of his knowledge, people have been placed where the principals believe they need an assignment filled by a quality, experienced retired/rehiree.

Dr. Hayman asked whether the State Board has defined critical subject areas. Ms. Howie responded that the State Board has declared the entire state is a geographic area need and has also declared, as they do on an annual basis, what subject area needs exist. Dr. Hayman commented that hopefully BCPS has clarified this for legislators questioning our practices, as well as the media.

With regards to recruiting, Dr. Hayman asked what the system is doing in its recruitment efforts to improve the recruitment of African-American minorities. Mr. Grimsley responded that BCPS has full-page advertisements in magazines that are received by predominantly black colleges and universities in the country. He also stated that BCPS continues to visit job fairs at colleges and universities from Pennsylvania to South Carolina.

REPORTS (cont)

Dr. Hayman inquired about a minority recruitment plan. Mr. Evans responded we have a plan and are in need of continually updating that plan. In terms of the low performing schools and recruitment effort, Dr. Hayman asked if the system was placing a priority on staffing those schools as opposed to the high performing schools. Mr. Evans responded absolutely.

Mrs. Ettinger commented that there would be no need for such legislation if we had a readily available supply of highly qualified educators coming into the profession. Mrs. Ettinger asked if the retired/rehired individuals are rehired on a one-year contract. Mr. Evans responded every year these individuals have to reapply with no guarantee of continuing employment. Mrs. Ettinger asked whether the concentration has been to place retired/rehires in challenging schools. Mr. Evans responded BCPS would want a balance of new teachers that could be mentored by rehired retirees and highly qualified teachers.

Dr. Hairston stated it was important to share this information with the Board and hire as many new teachers as possible that meet the highly qualified teachers requirement.

- B. FY2003 Comprehensive Annual Financial Report & Single Audit Report –**  
Mr. Grzymiski presented the FY03 financial and single audit report, and the management letter to the Budget and Audit Committee. He noted that the auditing firm of KPMG reviewed all the reports and findings in detail with the Budget and Audit Committee members and staff. Mr. Grzymiski introduced Mr. Patrick Boyce, Partner with KPMG. He also recognized the efforts of the Department of Fiscal Services and the auditors for their work throughout the year.

With regards to the single audit report, there were three major areas of concentration: Special Education, Child Nutrition Cluster, and the National Science Foundation Grant. Mr. Grzymiski noted that staff has already begun developing and implementing corrective action to address various findings. He has asked KPMG to come back at the end of the school year to provide an update on the BCPS corrective action plan.

Mr. Hayden asked Mr. Boyce if KPMG was satisfied that BCPS is addressing the findings. Mr. Boyce stated he believes BCPS will be responsive. He also noted the Board needs to prepare and issue a corrective action plan along with the single audit report to MSDE.

With regards to the finding in the area of Special Education, Ms. Shillman asked if a sample of 30 students was a good test sample. Mr. Boyce responded affirmatively.

REPORTS (cont)

- C. **Report on Proposed FY 2005-2010 County Capital Budget Request** – Ms. Barbara Burnopp, Executive Director for Fiscal Services, presented for the first reading the proposed county capital budget request. Ms. Burnopp noted that the county requires BCPS to submit a list of items in January 2004 for the fiscal years 2005 through 2010. This is our opportunity to look ahead as to future needs.

Mr. Hayden noted that FY2005 was not included in the five-year plan. He asked if there were any changes to fiscal year 2005. Ms. Burnopp responded there are no changes to FY2005.

Ms. Shillman inquired as to whether there is money for middle schools in the northwest area during this time period. Ms. Burnopp responded no.

Mr. Walker was pleased to see the Milford Mill cafeteria expansion in the budget.

Mrs. Ettinger asked if a date has been set for the Board of Public Works hearing. Dr. Krempel stated he would obtain that information for the Board.

Mr. Grzyski asked why the budget request does not show any of the additional recommendations as reported in the DeJong Study. As we go through the process, Mr. Grzyski hoped to see additional information as to why we are not putting the recommendations as presented by DeJong and Associates in the county budget plan.

Ms. Karen Yarn, Advisory Committee for Gifted and Talented Education Chairperson, announced its next meeting on Wednesday, January 14, 2004 at 7:30 PM in the ESS Building. Ms. Paynter will be presenting a report on the middle school task force.

Ms. Meg O'Hare, Northeast Area Advisory Council Chairperson, announced the upcoming BCPS science engineering and technology (SET) fair on May 21-22, 2004 at New Town High School. She hopes schools take advantage of the opportunity of the fair and invites the Board to attend. Regarding the retired/rehired teacher situation, Ms. O'Hare took issue with naming individuals in the newspaper. She believes people are "making a mountain out of a molehill," and that the system needs to stay focused on priorities.

Ms. Vicki Schultz-Unger, Area Advisory Council Coordinator, appreciated the retired/rehired presentation and clarification. She believes the law was meant to address teacher shortage and not necessarily the areas of the neediest schools. She remarked that the federal law requires all classrooms to be staffed with highly qualified teachers and that should be our focus. She believes that Dr. Hairston has used this opportunity to address some of the areas of critical need. She announced all area councils have been meeting with the legislators in November and December. Additionally, all councils will launch into legislative advocacy, including working

STAKEHOLDER GROUPS (cont)

The unit with the largest percentage increase in membership was McCormick Elementary. Mr. Franklin announced that the PTA Council of Baltimore County for the 21<sup>st</sup> year in a row received the Council of Excellence Award.

Ms. Cheryl Bost, TABCO President, commented that everyone wants to work together to retain highly qualified teachers in all schools. She stated that TABCO supports the retired/rehired program and encourages its continuation. Ms. Bost advocated for an increase in teachers' salaries and noted that Maryland's pension system is the worst in the United States. Ms. Bost announced that TABCO was initiating a pension bill in the House and Senate for this upcoming legislative session. She highly recommends the Board attend the Thornton rally on January 26, 2004.

PUBLIC COMMENT

Ms. Jody Shaefer commented on the redistricting and new high school recommendations presented in the DeJong study. She stated that Perry Hall High School's population will continue to increase and a new high school needs to be built. Ms. Shaefer expressed her concerns regarding the overcrowding issue in the Northeast area and is willing to work with the Board and legislators to see that all parties involved reach a viable solution.
