RECOMMENDATION

That the Board of Education approves an award of contract.

New Gas and Electric Service at Western School of Technology.

Appendix I

Recommendation for Award of Contract New Gas and Electric Service at Western School of Technology September 21, 2004

New boilers have been designed to replace the existing boilers at Western School of Technology. This project includes the removal of an underground oil storage tank. The new boilers have been designed to be fueled by natural gas. In order to have an adequate supply of natural gas, it is necessary for Baltimore Gas & Electric Co., Inc. (BGE) to increase the existing gas service and upgrade the meter. BGE is requesting \$18,584.00 to perform this work. At this time, the Department of Physical Facilities recommends an award of contract with BGE in the amount of \$18,584.00, to provide increased gas service to Western School of Technology.

Funding for this service is available in State Capital Budget Project #665 – Western School of Technology.
