## REPORTS

The Board received the following reports:

A. **Report on Maryland School Performance Program** – Through a PowerPoint™ presentation, Dr. Beverly Pish, Director of Accountability, Research, and Testing, and Mr. Peter Cincotta, Resource Teacher, provided an executive summary of the MSA results from the 2003-2004 school year.

- BCPS students attained reading proficiency rates that exceeded the proficiency rates for the State of Maryland at grade levels 3 to 8 and 10.
- Proficiency rates for BCPS students in mathematics also increased from 2003 levels.
- BCPS attendance rates exceeded Maryland State attendance rates at every school level.
- Graduation rates reported for BCPS students surpassed the Maryland State graduation rate in 2004.
- BCPS teachers have higher Advanced Professional Certificate (APC) and Standard Professional Certificate (SPC) rates than the state of Maryland average.
- AYP was met for attendance and graduation on the county level.

Mr. Grzymski asked that additional opportunities to provide this information to parents and communities exist.

Mr. Camp asked whether parents and students receive this information with Mr. Cincotta responding affirmatively.

Mr. Kennedy asked at what point schools receive their test scores. Dr. Pish responded the current schedule from MSDE is for schools to receive the scores in the fall of the following school year. She noted the information reported at the school level is exactly as presented this evening.

Dr. Hayman stated the report is somewhat misleading and limited. He noted the direct correlation between schools performing poorly at basic level and the number of conditional teachers. Dr. Hayman also stated the report is limited because data is not disaggregated. Dr. Hayman shared Mr. Grzymski's concern in getting data to parents and helping them to understand it. He expressed concern that the MSA tests only two subject areas and is restricted to certain grade levels.

Dr. Hayman hopes this report is used to make instructional decisions.

Mr. Hayden suggested that the Board adopt a resolution urging the State Board to move the process forward and change the reporting dates. He stated parents must be drawn into this process.

REPORTS (cont)

Mr. Borunda asked how the system accounts for Hispanics meeting AYP versus 67% of Hispanics failing the HSA. Mr. Cincotta responded the MSA and HSA are two different tests and not comparable.

Mr. Janssen expressed concern about getting this information internally to middle and high schools in a timely manner. Mr. Cincotta responded this data was made available by September on the MSDE website and to schools including subgroup, grade levels, and special areas. Dr. Pish added many schools held PTA meetings and sent letters home to parents regarding the results in the fall.

Ms. Shillman suggested educating the public that this information is available in the schools in the fall.

Mr. Camp inquired about disconnects between parents receiving the data online in the fall and the printed results later in the year. Dr. Pish responded parents receive this information in the fall. BCPS verifies the data before a second letter is sent to parents.

- B. **Report on the Proposed Boundaries for Woodholme Elementary School** – Through a PowerPoint™ presentation, Dr. Scott Gehring, Executive Director of Schools, Northwest Area, reviewed the charge to the Boundary Committee, the composition of the group, results of the community forum, the committee's recommendations, the Superintendent's recommendation, and projection and enrollment data. Dr. Gehring noted the school is being built to relieve crowding at New Town Elementary School.

On page 5 of the DeJong's Report, Mr. Janssen inquired about road locations.

Mr. Arnold asked whether projected future growth in the Woodholme area has been considered. Dr. Gehring responded that if Woodholme would open today it would be under capacity. He noted there are several hundred students annexed or capped and that Woodholme Elementary School is not the final answer for overcrowding in the northwest area. Dr. Gehring also noted every elementary school in the northwest is within 90% and 95% capacity.

Mr. Grzynski asked for clarification on the New Town Elementary School enrollment of 1,300 students. Ms. Pamela Carter, Specialist in the Office of Strategic Planning, responded this number represents students inside the New Town Elementary School boundaries and those who live in the annexed area. She noted that at the beginning of the school year, New Town Elementary School had 1,198 FTE students. Mr. Grzynski asked if this number is before subtracting the Woodholme students with Dr. Gehring responding affirmatively.

MINUTES OF THE BOARD OF EDUCATION OF BALTIMORE COUNTY'S  
PUBLIC HEARING ON THE PROPOSED BOUNDARIES FOR  
WOODHOLME ELEMENTARY SCHOOL

Wednesday, March 23, 2005  
Pikesville High School

The public hearing was called to order at 7:03 p.m. by Ms. Barbara Walker, Assistant to Dr. Scott Gehring, Executive Director of Schools for the Northwest Area. The following Board members were present: Vice President Thomas G. Grzymalski, Mr. Luis E. Borunda, Ms. Frances A.S. Harris, Mr. Rodger C. Janssen, Ms. Ramona N. Johnson, Mr. Michael P. Kennedy, and Ms. Joy Shillman. In addition, Dr. Joe A. Hairston, Superintendent, J. Robert Haines, Deputy Superintendent of Business Services, Nevett Steele, Jr., Esq., Assistant County Attorney, staff members, as well as media were present.

Ms. Walker reviewed the boundary process to date.

The following citizens addressed the Board:

1. Mr. John Redmond, a Library Media Specialist at New Town Elementary and a member of the Woodholme Boundary Committee, stated the committee was composed of representatives of the community, parents, teachers, and administration of the cluster schools. Mr. Redmond urged the Board to accept the committee's recommendation of scenario "C" and understand this is the first of a number of boundary changes that need to be made in the northwest area.
2. Ms. Erin Waller, a PTA officer at New Town Elementary School and a member of the Woodholme Boundary Committee, stated scenario "C" allows some of the potential Owings Mills/New Town area future growth to be distributed to Woodholme. She urged the Board to vote for scenario "C".
3. Ms. Ann Badin, a member of the Woodholme Boundary Committee and PTA President of New Town Elementary School, stated scenario C is the best solution and asked the Board to accept the boundary committee's recommendation. She stated the sole purpose for the change is to help alleviate overcrowding at New Town Elementary School and not about property value.

Mr. Hayden entered the room at 7:22 p.m.

4. Mr. Louis Kaplan, a member of the Board of Directors of Long Meadow Estates and chairman of its Education Committee, stated he has spoken on behalf of Long Meadow Estates at previous Board meetings. He shared his concern that his community was excluded from the redistricting process. Mr. Kaplan requested that his neighborhood be considered in the redistricting from Wellwood International to Fort Garrison Elementary School.

5. Mr. Alan Zukerberg, President of Pikesville Community Council and Long Meadow Association, asked those individuals in the audience in support of his request to stand (approximately 30-35 people). He voiced his concern that his community was excluded from the boundary process. Mr. Zukerberg stated the boundary committee had no representatives from the Northwest Advisory Council. He believes there was a violation of Policy 1280 by not including this community as a stakeholder in the process. Mr. Zukerberg asked the Board to amend scenario “C” to include Fort Garrison.
6. Ms. Nancy Olin, a member of the Fields of Stevenson Community Board of Directors, shared her concern that the community forum questionnaire only provided two choices and did not allow for other scenarios or amendments. She stated Fort Garrison and Wellwood International are schools whose boundaries and populations are affected by the redistricting process. Ms. Olin noted there were communities approximately 1.4 miles from Fort Garrison Elementary School and about 1.7 miles from Wellwood International.
7. Mr. Michael Gruber, President of the Dumbarton-Stevenson Civic and Improvement Association, which represents the Dumbarton Heights Community, and a member of the Northwest Area Educational Advisory Council, stated the children of his community should travel to the school that would be shorter and safer for children. He stated moving students from his neighborhood to Fort Garrison Elementary School would free up capacity and spare the community a second redistricting situation in the future.
8. Mr. Dan Martin, Legislative Director for Delegate Zurkin, introduced himself and stated he was available to answer questions individuals may have about the boundary changes.
9. Ms. Amie Bell, co-chairman of Cedarmere Elementary School PTA Overcrowding Committee, asked parents from Cedarmere to stand (three stood). She stated though while this boundary change is a step in the right direction, it does nothing to relieve the unacceptable overcrowding at Cedarmere. Ms. Bell asked the Board to remember this school as it considers the boundary lines for Woodholme Elementary School.
10. Ms. Lori Rosenzweig, a parent and resident of the Huntington Community, stated that scenario “C” makes the most logical boundary for Woodholme Elementary and urged the Board to support that scenario.
11. Mr. Eugene Seidel, a resident at the Fields of Stevenson, voiced his concern that the redistricting to excluded the Fields of Stevenson, Dumbarton, and surrounding areas. He urged the Board to reconsider the boundary change and to incorporate the Fields of Stevenson and Dumbarton, at a minimum, in the Fort Garrison district.

12. Speaker waived commenting before the Board.

The Board of Education of Baltimore County will vote on the proposed boundaries on April 12<sup>th</sup>. Vice President Thomas Grzyski urged the audience to contact the Board office so that additional comments could be forwarded to Board members.

The hearing was concluded at 7:45 p.m.

Respectfully submitted,

---
