## INTRODUCTION

The Baltimore County Public Schools are dedicated to providing a quality, comprehensive educational program designed to address the needs of a diverse student population. Building on current successes, the system's **Blueprint for Progress** outlines the vision, mission, belief statements, performance goals, performance indicators, and key strategies.

The **Blueprint for Progress** provides clear direction for everyone involved in education in Baltimore County. The **Blueprint for Progress** is built on a foundation of clear standards, quality instruction, and individual accountability and is a basis for the Master Plan of the Baltimore County Public Schools. The Master Plan defines the actions the school system will take for continued improvement of achievement for all students.

Our children are our future.

We must teach them well.

They deserve the best.

### High Quality Professional Development Opportunities

Professional development opportunities are of high quality if they are sustained, intensive, content-based, and classroom-focused in order to have a positive and lasting impact on daily instruction, on the teacher's overall performance in the classroom, and on student achievement.

**International Baccalaureate (IB)** is a rigorous course of study at the high school level that can result in the receipt of college credit and an IB designation on the diploma.

**Maryland School Assessment (MSA)** is a federally-mandated assessment program in grades 3 through 8, and grade 10 which will assess student achievement as basic, proficient, or advanced in the areas of reading and mathematics. The test results will be used to determine whether schools and school systems are meeting federal/state requirements for student achievement.

**Performance Level Standards** indicate the state's three achievement levels: Advanced, Proficient, and Basic. All students should be at the Proficient or Advanced levels.

## Highly Qualified Teacher

A “highly qualified” teacher:

- is eligible for a Maryland State Department of Education professional teaching certificate, and
- has demonstrated, through rigorous testing or appropriate coursework, mastery of the teaching content to which the teacher has been assigned.

## Highly Qualified Paraprofessional

A “highly qualified” paraprofessional:

- has completed two or more years of study at an institution of higher education; or
- has obtained an associate’s or higher degree; or
- has a high school diploma or equivalent and meets a rigorous standard of quality, demonstrating through a formal state or local academic assessment the knowledge of and ability to assist in the instruction of reading, writing, and mathematics or the instruction in readiness for these subjects.

## *Vision*

Baltimore County Public Schools’ graduates will have the knowledge, skills, and attitudes to reach their potential as responsible, productive citizens in a global economy and multicultural society.

## *Mission*

The Baltimore County Public Schools’ mission is to provide a quality education that develops the content knowledge, skills, and attitudes that will enable all students to reach their maximum potential as responsible, life-long learners and productive citizens.

## *Goals*

**To improve achievement for all students**

**To maintain a safe and orderly learning environment in every school**

**To use resources effectively and efficiently**

## ***Belief Statements***

- We believe that all students will learn and achieve.
- We believe that improved student achievement requires families and communities to be partners in the educational process.
- We believe that increased student achievement requires families to be responsible and accountable for their children's education.
- We believe that all schools will demonstrate adequate yearly progress.
- We believe in respecting the dignity and worth of every individual.
- We believe that a quality education requires:
  - An effective, qualified teacher in every classroom
  - An effective, qualified principal focused on instruction in every school
  - A challenging systemic curriculum
  - A results-oriented, data-driven focus based on continuous growth
  - An assessment program focused on the measurement of student growth
  - Shared accountability among teachers, principals, and central office personnel
  - Early intervention for young children.
- We believe that every employee must model ethical behavior, exhibit a strong work ethic, and perform at high levels.
- We believe that all Baltimore County Public Schools' departments and offices must demonstrate continuous improvement.

## ***Glossary of Terms***

**Accuplacer** is a college readiness examination that is offered to students to determine their ability to take college level courses in Baltimore County Public Schools. Accuplacer is a test used as part of the Baltimore County Public Schools College Readiness Program. The test is administered by assessors at CCBC.

The results are communicated to the schools by CCBC. Students are identified in three different groups: “College ready,” “On track,” and “See counselor.” Counselors work with students to identify programs that may be beneficial to students desiring a parallel enrollment at a community college, and/or a higher-level course selection in high school.

**Adequate Yearly Progress (AYP)** is the growth in student achievement from year to year as measured by the Maryland School Assessment program (MSA). AYP will be determined not only for schools and school systems but for disaggregated data sets, e.g., gender, race/ethnicity, free/reduced meals, special education.

**Advanced Placement Program (AP)** represents a cooperative effort between secondary schools and colleges and universities. It is a program of introductory college-level courses for students who are willing and able to apply themselves to college-level studies during their high school years. Students who successfully complete AP courses and exams may be exempted from introductory courses by many colleges and universities.

**Alternate Maryland School Assessment (ALT-MSA)** is designed for students with disabilities who are unable to participate in the Maryland School Assessment (MSA) even when accommodations are provided.

**Engaging Work** is teacher-developed activities and learning experiences that encourage and motivate students to persist at the tasks needed for learning.

**High School Assessments (HSA)** are State-mandated tests in Algebra I, biology, English 9, and government administered to measure student achievement in each of these subjects. The State will establish a passing standard, in the near future, which will become a graduation requirement for all students receiving a Maryland high school diploma.
