C. Report on Woodlawn Middle School (WMS) – Mr. Brian Scriven, Principal of Woodlawn Middle School, and Ms. Lisa Sampson, Assistant to the Assistant Superintendent for the Southwest Area, provided a status report on the Alternative Governance Plan at WMS. Mr. Scriven reviewed staffing, the instructional process to improve student achievement, pre-planning for the short cycle assessments, and extended time, professional development, and governance.

In response to a question from Ms. Harris regarding professional development, Mr. Scriven responded that WMS has a targeted professional development focus that is aligned with the alternative governance plan.

Mr. Janssen expressed concern that a long-term substitute for mathematics has been in place for approximately two years rather than a permanent mathematics teacher.
Mr. Janssen asked whether plans existed to reach out to the fifth graders in the feeder schools. Mr. Scriven responded he visited every feeder elementary school prior to the end of last school year. In regard to the Principal’s cabinet, Mr. Janssen was pleased to see students involved in this initiative and stated he would like to see this model implemented in other middle schools.

Dr. Hayman noted the importance of describing what the action team is accomplishing and what impact it has on the success of the school. He also stated the Board needs to see where the school is in terms of the governance plan and how it can be replicated in other places.

D. **Report on Woodlawn High School (WHS)** – Mr. Don Weglein, Principal of Woodlawn High School, and Ms. Lisa Sampson, Assistant to the Assistant Superintendent for the Southwest Area, reviewed with Board members staffing, administrative team approach, instructional efforts, approaches to a safe and orderly environment, SAT/HSA Results and Approaches to Improve Student Achievement, and AP/GT Increased Rigor.

Ms. Murphy asked whether the school anticipates getting additional advanced placement (AP) teachers. Mr. Weglein responded that assigning teachers to AP classes has not been difficult at all. Mr. Weglein stated the on-line AP courses are working well.

Mr. Janssen noted that the increases in the HSA results are impressive. He stated that while AP/GT courses have been added, sixteen classes is not enough. Mr. Janssen would like a report, possibly in the spring, on the success of the on-line AP classes.

Dr. Hayman identified the following concerns:
- Mathematics teaching position still open
- Resources not necessarily appropriately placed
- Student safety
- Students need to take the SAT in their freshman year
- Excellent robotics summer camp; however positive events are not being communicated.

Mr. Hayden stated that the statistics provided showed that WHS saw an improvement of 84% over last year in Algebra, which is remarkable. He also commented that the Board is behind WHS and is proud of the progress made to date. Mr. Hayden noted the importance of Woodlawn Middle and High Schools having an opportunity to re-present in the spring and providing an update on the progress and achievements being made at each school.

Ms. O’Hare expressed concern with the number of average students at WHS. Ms. O’Hare stated she would like an update on the average student as part of the future report.
