SPECIAL ORDER OF BUSINESS

Ms. Murphy announced that the BCPS Comprehensive Annual Financial Report (CAFR) is published annually after completion of the annual audit of the Board’s financial statements. The fiscal year 2007 CAFR includes the artwork of students from various schools for the 2006-2007 school year. Ms. Murphy recognized and thanked the students by presenting each student with a U.S. Savings Bond. The students were:

- Laurese Yvette Kelley – Woodlawn High School
- Kari Ann Opert – Patapsco High School & Center for the Arts
- Jeshua Peart – Randallstown High School
- Justin Aaron Sklar – George Washington Carver Center for Arts & Technology
- Angela Marie Watson – Perry Hall High School

REPORTS

The Board received the following reports:

A. **FY2007 Comprehensive Annual Finance Report and Single Audit Report** - Mr. Hayden presented the fiscal year 2007 financial and single audit report and the management letter to the Board. He noted that the auditing firm of Clifton and Gunderson had reviewed all the reports and findings in detail with the Budget and Audit Committee members and staff. Mr. Hayden stated that the Board received an “unqualified opinion” on the CAFR, which is the greatest level of assurance that an auditor can give to indicate that the financial statements of an organization are not materially misstated.
REPORTS (cont)

Although the Single Audit Report contained a single finding, Mr. Hayden stated that staff has already developed and/or implemented corrective action to address the finding. Mr. Hayden noted that BCPS has achieved the status of a “low risk auditee” for fiscal year 2008. Staff will provide updates at future Budget and Audit Committee meetings to report progress made in addressing the findings, and any unresolved concerns will be reported to the full Board.

B. Curriculum Management Plan (CMP) Update – Dr. Sonia Diaz, Chief Academic Officer, provided Board members with an update on the CMP and the actions of the Curriculum Management Committee (CMC), which included:

- Reviewing alignment of all curriculum work as supported by AIM
- Approving a proposed outline for the Comprehensive Assessment Plan
- Reviewing Curriculum Development Working Group plans consistent with curriculum guides to address curriculum Audit # 3
- Reviewing the Curriculum Development Working Group’s draft 3-5 year curriculum development plan
- Reviewing the pilot of a new professional development approval system proposed
- Adopting procedures to guide their meetings and those of the CMC Working Groups
- Adopting procedures for proposing updates to the Curriculum Management Plan
- Establishing an online workspace to house documents in progress
- Approving procedures for gathering data about assessments administered across the district to inform the assessment matrix in development by the Assessment, Monitoring and Evaluation Working Group.

Dr. Wesley Boykin, Executive Director of Research, Accountability, and Assessment, reviewed the progress to date of the assessment, monitoring, and evaluation work group. Board members received draft copy of the Comprehensive Assessment Plan. Assessments will be put in place to provide information on student learning that will inform teachers, principals, and other stakeholders about the level of student achievement and the instructional needs of the student.

Ms. O’Hare asked if the school system is going back and reviewing the short-cycle assessment and benchmark tests were currently have to ensure alignment with the proposal with Dr. Boykin responding affirmatively.
REPORTS (cont)

Ms. Flynn asked how the school system will determine the adequacy of special assessments with attention to teacher workload and preserving instructional time. Dr. Diaz responded that part of the data to be collected will be placed in a matrix that identifies all the assessments that teachers are responsible for to ensure testing is not driving the curriculum. Short-cycle assessments should help teachers create the lessons; benchmarks are what students should have learned. Dr. Boykin stated that once the data is collected, the school system can look at the predictability of these benchmarks in terms of how students are performing on state-mandated tests. Ms. Flynn asked whether the AIM objectives need to be assessed. Dr. Diaz responded that the AIM tool has been used to help BCPS realign the curriculum to ensure that what is being taught is directly related to the voluntary state curriculum and core learning goals.

Ms. Johnson asked how the school system will address the issue of students who have not mastered skills in previous grades. Dr. Diaz responded that as assessments are administered, the assessment should help identify student weaknesses. Ms. Johnson expressed a concern that there are students who have not mastered basic skills and are now required to pass the high school assessments (HSA) for graduation.

Mr. Hayden asked whether any program provides remediation opportunities at the high school level. Dr. Diaz responded that the data will show teachers where gaps exist and where teachers need to re-teach. There are interventions and programs are currently in place to support teaching at the classroom level.

Ms. Shillman asked whether retention was an option. Dr. Diaz responded that while retention is an option, research shows that students who are retained have a more difficult time regaining grade-level performance.

Ms. Verletta White, Executive Director of Professional Development, provided a brief review of the professional development workgroup and the comprehensive professional development plan that will address the recommendations of the PDK audit.

Mr. Hayden asked whether there has been an active solicitation of teachers and new hires to determine what they would like to see in professional development to improve their skills. Ms. White responded affirmatively with these inquiries resulting in new programs.

Ms. O’Hare asked if there will be a curriculum of professional development for new teachers. Ms. White responded there is a guide for all teachers who would be presented with new curriculum.
Ms. Yvonne Barhight, Acting Assistant Superintendent of Humanities, shared with Board members the progress of the curriculum management work group. This group has focused on developing a three- to five-year plan covering all areas identified in the PDK audit. The curriculum writing plan (CWP) for the 2007-2008 academic year highlights the curriculum revisions and the concomitant work. Still in the development is the timeline that will add dimension and specificity to the CWP.

With respect to differentiated lesson plans, Ms. O’Hare asked how specific the information would be for the classroom teachers. Ms. Barhight responded that there will be differentiation for enrichment, acceleration, and re-teaching.

Mr. Janssen asked whether the curriculum development group would require three to five years to develop and write the curriculum. Dr. Diaz responded affirmatively. The three- to five-year plan will address all the items in the PDK audit in a holistic way. Mr. Janssen asked whether a professional development approval system will be part of the plan. Dr. Diaz responded the comprehensive professional development plan specifies that professional development must be aligned with both the Blueprint for Progress and school improvement plans.

With respect to the curriculum writing plan, Mr. Janssen asked why no cost is assigned in the comments column marked “staff in office.” Dr. Diaz responded it is done by BCPS staff performed during the regular duty day. Mr. Janssen commented that the school system has a cost of under $500,000 attributed for this task. Dr. Hairston stated that the curriculum audit response does not require new dollars but will use existing funds.

Ms. Shillman asked for an update on the work of one of the school system’s consultants.

C. Legislative Update – Dr. Donald Peccia, Assistant Superintendent of Human Relations and Governmental Relations, provided a summary of the legislative special session as it related to public education funding.

- Thornton Formula – House Bill 1, Budget Reconciliation Act, establishes a supplemental grant that ensures at least one percent annual increase in state aid for each school system during the two years of the freeze. Baltimore County will receive an increase in funding of approximately 1% in 2008-2009 over current year.
- Budget Reductions – It is the intent of the General Assembly that the Governor make reductions in the 2008-2009 state budget of at least $550 million.
REPORTS (cont)

Further discussion of all budget reductions will occur when the 2008 General Session of the Maryland General Assembly convenes on January 9, 2008.

D. Board of Education Policies – Ms. Frances Harris, Chairperson of the Board Policy Committee, stated that the Board of Education’s Policy Committee met to consider the policies presented this evening, and that the committee is recommending approval of these policies. This is the first reading.

Ms. Murphy stated that public comment is one of the opportunities provided to hear the views and receive the advice of community members. The members of the Board appreciate hearing from interested citizens and will take their comments into consideration, even though it is not the Board’s practice to take action at this time on issues which are raised. When appropriate, the Board will refer concerns to the superintendent for follow-up by his staff.

While the Board encourages public input on policy, programs, and practices within the purview of this Board and this school system, this is not the proper avenue to address specific student or employee matters, or to comment on matters that do not relate to public education in Baltimore County. The Board encourages everyone to utilize existing avenues of redress for complaints. Inappropriate personal remarks or other behavior that disrupts or interferes with the conduct of this meeting are out of order.
