REPORTS

A. **Report on NSBA Technology and Leadership (T+L\(^2\)) Conference** – Mr. Hines shared with Board members roundtable discussions and workshops he and Ms. O’Hare attended in October. The T+L\(^2\) Conference, hosted by the National School Boards Association’s (NSBA) Education Technology Department, is recognized as the premier national event for decision-makers who choose and use technology in schools.

Speak Up 2008, a national online research project, gives parents, teachers, and students the opportunity to share their viewpoints about key educational issues. Mr. Hines shared a few results from the survey noting that:

- Thirty percent (30%) of Kindergarten through Grade 3 students have cell phones.
- Sixty percent (60%) of all students own or have access to a cell phone.
- Students who regularly play games on a cell phone score five to seven points higher on core courses.
- Seventy percent (70%) of all students want their own laptop as their number one device.
- From 2000 to 2008, Internet usage is up 900% in Africa and Asia.
- Online learning is up 24%.
- Students desire more virtual learning opportunities supplemented with field trips.

Mr. Janssen asked if there was any discussion on virtual academies. Mr. Hines responded in the affirmatively. The discussions revolved around fewer instructors and more virtual learning capabilities so that students can learn at their own pace.

B. **Report on NSBA Councils of Urban Boards of Education (CUBE) Conference** – Ms. Johnson reported on the annual CUBE conference noting this year’s theme focused on equipping urban schools with 21\(^{st}\) century skills. Various work sessions held included workforce opportunities for youth, fostering healthy and successful students, and strategies for addressing the dramatic dropout rate faced by urban schools. Ms. Johnson noted subset sessions such as challenges youth face when they are unprepared for the workforce, lack of skills in education limits ability to earn a descent wage, and continuing to improve what is offered students in the classroom. Ms. Johnson stated that additional reports and publications are available online at [http://www.nsba.org/CUBE](http://www.nsba.org/CUBE).

He noted that the auditing firm of Clifton and Gunderson had reviewed all the reports and findings in detail with the Budget and Audit Committee members and staff. Mr. Janssen stated that the Board received an “unqualified opinion” on the CAFR, which is the greatest level of assurance that an auditor can give to indicate that the financial statements of an organization are not materially misstated.

Although the Single Audit Report contained two findings, Mr. Janssen stated that staff has already developed and/or implemented corrective action to address the findings. Mr. Janssen noted that BCPS has achieved the status of a “low risk auditee” for fiscal year 2009. Staff will provide updates at future Budget and Audit Committee meetings to report progress made in addressing the findings, and any unresolved concerns will be reported to the full Board.

E. **Update on Performance Goals** – Ms. Jean Satterfield, Assistant Superintendent for the Southeast Area, shared with Board members the area assistant superintendents’ role in performance goals. Dr. Manuel Rodriguez, Southeast Area Assistant Superintendent, focused on information related to restructured schools. Three important points noted were:

- *Blueprint for Progress* is the framework for BCPS; continuous improvement efforts utilizing the service model and alignment.
- All students can and will achieve regardless of ethnicity, zip code, gender, socio-economic status.
- Restructuring plans have elements in place that have systemically been used across the school system (i.e. highly qualified teachers, master schedules, principals’ cabinets, short-cycle assessments, and benchmarking).
REPORTS (cont)

Area Assistant Superintendents reviewed their respective MSA data for elementary, middle, and high schools. All areas experienced percentage point gains in mathematics and reading.

In terms of middle and high schools, Ms. Johnson asked which school showed the most significant gain. Mr. Lawrence responded that all middle and high schools made gains; however, Deer Park Middle Magnet School and Milford Mill Academy made significant gains. Mr. Lawrence also noted that Milford Mill Academy made AYP and has been removed from the State’s school improvement list. Ms. Johnson asked whether performance plans vary by school. Mr. Lawrence responded that the school improvement plans (SIP) are web-based using a standard template. The SIP is driven by data unique to the individual school.

Mr. Hines asked if there is anything the Board can do in addition to visiting schools. Ms. Satterfield responded that the Board can support PTA functions, approve capital and operating budgets, and listening to stakeholders and the public.
