Attachment II – Policy 2361
Policy Analysis for
Board of Education Policy 2361
Distribution of Non-School Materials

Statement of Issues Addressed By the Proposed Policy
Board of Education Policy 2361 pertains to the distribution of materials was adopted on November 16, 1972 and was last revised on August 16, 1990.

Revisions to this policy were developed with two goals. First, recent federal case law has addressed distribution of flyers in public schools, *Child Evangelism Fellowship of Maryland v. Montgomery County Public Schools*, 457 F.3d 376 (4th Cir. 2006). Revising current policy is necessary to comply with federal law. The current policy is not sufficient. Revising the policy will provide principals with guidance regarding the distribution of materials to ensure consistency throughout the school system.

Legally schools are not required to distribute materials from outside groups. However, if schools determine that materials may be distributed procedures must be viewpoint neutral.

Under the system’s current process, BCPS distributes flyers (or other advertising materials) for various groups, including community-based day care providers, tutors, and other service providers. There has not been a process to determine the quality or appropriateness of the activities or programs. Limiting the distribution of flyers to the specific categories addressed by the revised policy will eliminate the currently existing ambiguity.

Currently, the approval process for the distribution of materials is centralized. A review of the current process determined that it would be more efficient and effective for the approval process for the distribution of materials to be handled at the school level.

Cost Analysis and Fiscal Impact on School System
No fiscal impact is anticipated by the revision of this policy.
