Item #9

Mr. Uhlfelder asked how many square feet is in this lease. Ms. Michele Prumo, Executive Director of Planning and Support Operations, responded that there are several suites: one suite is 23,400 square feet; another suite is 886 square feet, and another is 2,636 square feet. Mr. Gay stated that the lease totals 141,836 square feet. Mr. Uhlfelder asked whether the school system could negotiate with the landlord a future lease. Ms. Prumo responded that at the end of five years the school system would have the option of rewriting or negotiating a new lease. Baltimore County Public Schools (BCPS) negotiated the rent to remain the same for two years with many upgrades to the suites at no cost to the school system. Mr. Uhlfelder expressed concern that BCPS would be at the “mercy” of the landlord at the end of the lease with no place to relocate the offices.

Item #17

Mr. Uhlfelder asked why this contract was not under the joint agreement with the Pennsylvania Education Joint Purchasing Council (Weatherproofing Technologies, Inc.). Mr. J. Kurt Buckler, Administrator for the Department of Physical Facilities, responded that the joint agreement did not allow for metal roofing or the building up of new roofs.

Ms. Johnson asked whether any of the materials use to replace the roofs are made of “green” roofing materials. Mr. Buckler responded that the school system would replace the roof with the same type of roofing materials that currently exist. Ms. Johnson asked whether BCPS has the option to put on a “green” roof. Mr. Buckler responded that the school system would have to redesign the entire structure to accommodate a green roof.

The Board approved items 9 and 17 (favor-10).

9. RGA-112-10 Lease Renewal – Pulaski Park Suites 201-206, 207, 222, 118, 305-307

17. MWE-828-09 Roofing/Reroofing – Catonsville High School

REPORTS

The Board received the following reports:

A. Report on Fiscal Year 2011 State/County Capital Budget – Ms. Barbara Burnopp, Chief Financial Officer, provided a brief overview of the proposed FY2011 capital budget request and the state budget process. The budget will be discussed in detail at the work session on Tuesday, August 25, 2009.

- the number of conditional teachers totals 236;
- the number of candidates in the principal pool totals 37; and
- the number of candidates in the assistant principal pool totals 83.

Mr. Brian Scriven, principal at Woodlawn High School, and Mr. Paul Martin, principal at Kenwood High School, provided to Board members an overview of trends and staffing at their respective schools.

Mr. Uhlfelder asked why Pikesville High School’s highly qualified teacher percentage decreased from 2004 to 2008. Dr. Peccia responded that the decrease was in the area of self-contained special education.

Ms. Murphy asked whether Human Resources would revisit the two-year tenure rule regarding the principal and assistant principal pools. Dr. Arrington responded that prior to the 2006-2007 school year, candidates were allowed to remain in the eligibility pool indefinitely. The two-year term limited was enacted at the end of the 2005-2006 school year. Currently there are 37 candidates in the principal pool and 83 candidates in the assistant principal pool. In order to build capacity and find effective leaders, Dr. Arrington noted that BCPS offers the Aspiring Leadership course, which prepares perspective leaders for the role of an assistant principal. There were 90 participants in the course last year.
REPORTS (cont)

Mr. Parker asked how the BCPS is trying to identify parameters to measure effectiveness and qualification. Dr. Peccia responded that the task is to hire individuals who have the necessary course work as well as experience with students. Mr. Parker asked whether there is any research to quantify what a highly effective teacher would be. Dr. Peccia stated this would need to be investigated.

Ms. O’Hare requested additional information on what the restrictions of the stimulus money are regarding highly qualified teachers.

Old Court Middle School was approved and funded by the state in FY2009 as a limited renovation project. Once a limited renovation project is complete, the school system can return to that particular school with additional systemic projects. Riverview Elementary and Old Court Middle Schools were selected for the priority list due to the low cost of both projects.

Mr. Janssen asked whether the school system has a contract ready to replace the water tower. Mr. Buckler responded that a study on the tower was completed last summer and that the Baltimore County Department of Public Works has on-call design consultants as needed. Mr. Janssen suggested that the Hereford High School water tower replacement project move up on the priority list.

Ms. O’Hare asked about the capacity number of the new George Washington Carver Center for Arts and Technology. Dr. Hairston noted that there is an extensive waiting list for students who want to attend the school, so that the number of students able to attend will increase.

Mr. Pallozzi asked whether air conditioning was included in the Hampton Elementary School or Stoneleigh Elementary School renovation projects with Mr. Buckler responding in the affirmative.
REPORTS (cont)

Ms. O’Hare asked for a “timetable” for completing air conditioning in all schools. Mr. Buckler responded that as systems are coming to the end of their useful lives, Baltimore County Public Schools (BCPS) is including such systems in the capital budget to keep the schools operational. Mr. Buckler stated that Ridgely Middle School was approved by the state in the FY2006 capital budget as a renovation project. Once approved as a renovation project by the state, the school system cannot go back into that school and request or receive state funding for 16 years. Therefore, Ridgely Middle School is ineligible for state funding.

With respect to the capital planning and priorities timeline for FY2011-FY2014, Mr. Janssen asked whether feasibility studies had been completed. Ms. Michele Prumo, Executive Director of Planning and Support Operations, responded that this planning document gives the Board a perspective of where BCPS will need capacity and that a feasibility study would be completed during that particular planning year.

Mr. Hines asked whether there were emergency funds to cover the Hereford High School water tower replacement if needed. Ms. Burnopp responded that the school system will work with the county to request forward funding or redirect projects.

Mr. Hines asked how many projects on this priority list are related to improving air conditioning. Mr. Buckler responded that 25 out of the 35 requested projects include air conditioning. Mr. Hines stated that this type of information needs to be disseminated to communities.

Mr. Schmidt asked whether the limited renovations category allowed the school system to return for funding before 16 years had run out. Mr. Buckler responded that the purpose of the limited renovation category was to allow school systems to propose a systemic renovation for a particular school for state approval and funding.

Mr. Parker asked what funding the school system could expect to receive from the state. Ms. Burnopp responded that the priorities listed are based on previous state funding.

Ms. Roddy asked whether the state could approve Dundalk and Sollers Point High Schools for planning and then come back for funding at a later date. Ms. Burnopp stated that if the school system receives planning approval, it can move forward with funded projects.
REPORTS (cont)

Ms. O’Hare asked that, if BCPS would receive stimulus money, whether the money could be directed to projects that are “shovel ready” like Dundalk and Sollers Point High Schools. Ms. Burnopp stated that the only project available now is Quality School Construction Bonds (QSCB) program, which allows the county to bond at no interest. Ms. O’Hare asked whether this program would cover the Dundalk and Sollers Point projects. Ms. Burnopp responded that it would be part of the county money to match these projects.
