

INSTRUCTION

Relationship of Art, Music, and Physical Education Teachers to Classroom Teachers in Elementary Schools

A sound sequential program of art, music, and physical education should be provided for all children in the elementary schools of Baltimore County. Providing children with experiences in these special areas is the joint responsibility of classroom teachers and the art, music, and physical education teachers in each school.

The art, music, and physical education teacher will be responsible for the basic direction and guidance of their respective programs and will assume responsibility for the teaching and discipline of the class or group to which they are assigned. Both special area teachers and classroom teachers should form a team relationship in assessing and providing for the needs of children in the total instructional program.
