Contract Summary for Board

**Description:**

This contract consists of an interactive Web-based program for elementary level students that will integrate mathematics instruction into a gaming environment. The program combines rigorous curriculum, engaging environment, and technology to personalize the learning path for each student's unique needs. This will be used as part of the mathematics instructional program to provide extended learning opportunities for students. The Web-based program provides 24/7 access. It has been reviewed and selected by math content committees as an appropriate resource for use in our schools. It was initially piloted in elementary schools as an intervention for struggling students. It was successful in improving mathematic achievement and will provide digital resources that support the teaching and learning of mathematics in a personalized, blended learning environment. In addition, it supports intervention efforts to close students' learning gaps in mathematics.

Under section §7-106, Paragraph (a) of the Education Article of the Annotated Code of Maryland, BCPS purchases the above materials upon the recommendation of the county superintendent and the adopted procedures of the county board. This recommendation is in accordance with Board of Education Policy and Superintendent's Rule 6002. Instructional materials are recommended after being carefully evaluated and selected by a curriculum and instruction committee for use in the subject area; the selected materials support the curriculum and meet the diverse needs of students. Under Superintendent's Rule 6002, instructional materials may be consumable and expendable and include, but are not limited to, such items as charts, kits, textbooks, magazines, newspapers, pictures, recordings, slides, transparencies, videos, video discs, workbooks, and electronic resources such as software, CD-ROMs, and online services.

This contract supports *Blueprint 2.0*: Goal 1, Academics, Strategic Initiatives A, C, and E.
