CURIOUS ABOUT YOUR LEARNING STYLE & OTHER STUDY SKILLS?

Take any of these 5-minute quizzes and learn a little more about yourself. More information on: Study Skill Assessments
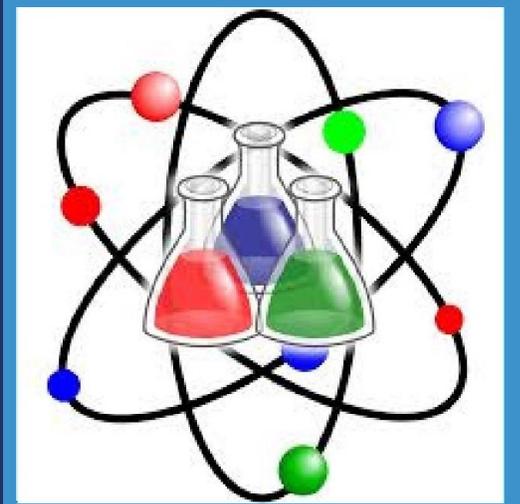

College Major: Science

The most exciting real-life careers may lie in the sciences. From studying the earth we live into the skies above us, science majors and careers are all about exploration and delving into the unknown. Here are some helpful web sites about majoring in a science in college:

Careers in the science field

Science majors and potential jobs

An example of one college's list of science majors

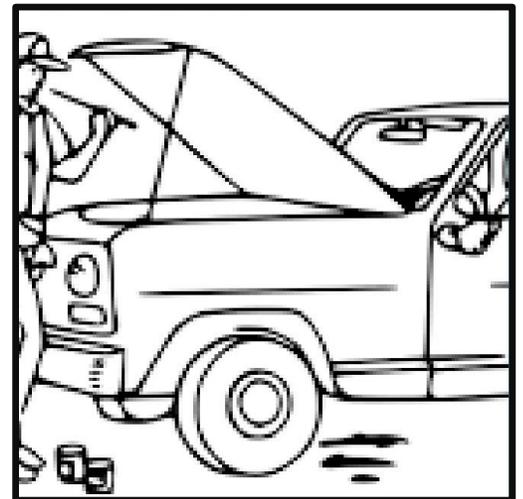

Trade: Automotive & Diesel

Work with your hands and help solve problems. No offices or long meetings, instead you are constantly on the move, getting your hands dirty, and finding way to keep trucks and cars running! Check out these websites:

So you want to be an Automotive Technician?

Diesel Technician: Job Description & Career Requirements

Diesel Mechanic Schools in Maryland

Automotive Technology Programs offered at CCBC

Military: Coast Guard

The Coast Guard is unique because rather than being a part of the Department of Defense, it is a part of the Department of Homeland Security. However, the Coast Guard is considered a military service and in time of need the president can transfer any Coast Guard to the Department of the Navy. Check out these websites for more information:
